- FIGMA

EDUCATION

BTech in CS & IT 2019-2023
Gandhi Institute for Technological Advancement

Secured 7.6 CGPA

Intermediate 2019
St. Xavier's High School

Secured 81%

Matriculation

St. Joseph's School 2017
Secured 73%

PROJECTS

FilmyVerse

- Search Functionality:** Integrated a robust search functionality allowing users to efficiently find specific movies within their collection.
- Rating System:** Developed a user-friendly rating system empowering users to provide feedback on movies.
- User Authentication:** Implemented secure user authentication utilizing Firebase authentication services.
- UI Design:** Led the design process to create an aesthetically pleasing and intuitive user interface (UI) for the application.

React ChatApp

- Real-Time Messaging:** Implemented real-time chat functionality, providing a smooth and engaging communication experience.
- User Authentication:** Utilized Firebase Authentication to manage user sign-up, login, and logout processes, ensuring secure access to the application.
- Block Users:** Developed a user-blocking feature, enabling users to block others from sending messages.
- Responsive Design:** Designed a responsive user interface ensuring the application performs well on various devices, including desktops, tablets, and smartphones.

Weather App

- Real-Time Weather Updates:** Implemented a seamless integration with a weather API to fetch current temperature data.
- Intuitive User Interface:** Designed a clean and intuitive user interface using HTML and CSS, prioritizing readability.

INTERESTS

- Front End Development
